

The Young Life Ministry

Young Life is a ministry for high school students to be introduced to Christ by leaders creating friendships with these students and showing them an example of what a Christ-filled life looks like. is the ministry that introduced me to Christianity. I was a junior in high school and one day, I was at a park, when I was approached by a guy that told me go to Young Life. After being told what it was, I was interested and decided to go with some of my friends and it was the best decision of my life. After 2 years of going, it finally converted me into the faith and I am currently a leader myself for Glendora high school and the picture to the right shows me and the team I lead with.

This is me and my senior boys during one of our “hipster” themed events.

This is when me and my team took most of our students to a trampoline park in San Dimas.
